

PRESS RELEASE

JCB makes LVS Small Plastic Parts a Tier 1 Supplier

LVS Small Plastic Parts has been supplying the automotive market for many years. It is therefore unsurprising but hugely gratifying that the company — which is already supplying parts to some of the biggest automotive companies in Europe, — has also become a Tier 1 suppliers to another major automotive OEM. It is another example of the company's growth within the automotive sector.

LVS Small Plastic Parts has implemented the necessary systems and procedures that comply with the demands and standards expected by the automotive industry.

Managing Director Simon Anderson said, "We produce components for both 'above' and 'below' the bonnet applications. LVS's quality assurance team are fully conversant with the inspection standards associated with strict tolerance manufacturing, and as a team we have worked closely with companies as high profile as the likes of JCB through various projects."

"Our efforts have now been rewarded as we have been nominated as a Tier 1 supplier to one of the worlds leading manufacturers."

Since 1975, LVS Small Plastic Parts has become a leader in plastic injection moulding, and the contract manufacturing partner to some of the leading companies in the UK .

Specialising in providing complex plastic injection moulded thermoplastic and silicone solutions, the company's commitment to quality, innovation, and speed-to-market is why market leaders across the U.K. and Europe trust LVS to deliver their most challenging new products.

ABOUT JCB

In every corner of the world you'll find a JCB machine. JCB is one of the world's top three manufacturers of construction equipment. They employ around 11,000 people on 4 continents and sell our products in 150 countries through 2,000 dealer depot locations.
